'FocusOn' Maize - a new resource from Burleigh Dodds

Originating in Mexico in 5000 BC, today 870 million tonnes of **maize** is grown providing a staple food for an estimated 1 billion people across the world.

Burleigh Dodds is proud to introduce a unique resource, 'FocusOn', created for the **maize** research community and is the focus of this newsletter. In it we have the latest **blog** post from Francis Dodds about achieving **climate-smart maize cultivation**. We also share the **latest news** and **latest videos** available on maize as well as explaining more about this **new resource**.

Climate-smart maize

In his latest blog Francis Dodds looks at the importance of adaption, mitigation and security as the three goals of climate-smart agriculture.

To achieve these goals, the cultivation of staple crops such as maize needs to achieve 'more with less.'

'FocusOn' - Your new resource

Burleigh Dodds is excited to introduce a unique resource for the maize research community.

Our new website pages will ensure you can find essential information on the key issues facing maize and how research is addressing them.

The power of video

Did you know that by the end of 2015 60% of all content viewed on line will be video based?

The thirst for engagement means that video content is the most effective way to communicate and therefore Burleigh Dodds is sharing the best maize videos available online.
