Achieving sustainable cultivation of tropical fruits

Edited by: Professor Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico

Part 1 Citrus fruits

1. Mapping and exploiting the citrus genome: *Patrick Ollitrault, CIRAD, France*
2. Harvesting citrus: challenges and perspectives in an automated world: *Marcos David Ferreira, Embrapa Instrumentação, Brazil*
3. Advances in postharvest handling of citrus fruit: *John Golding and John Archer, New South Wales Department of Primary Industries and University of Newcastle, Australia*
4. Advances in understanding the ecology of citrus insect pests: *Robert W. Jones, Universidad Autónoma de Querétaro, Mexico; Pablo Liedo, El Colegio de la Frontera Sur, Mexico; and Santiago Vergara-Pineda, Universidad Autónoma de Querétaro, Mexico*
5. Advances in integrated pest management (IPM) in citrus cultivation: *Lukasz Stelinski, University of Florida, USA*
6. Lime breeding: a way forward: *Muhammad Usman, University of Agriculture, Pakistan; Muhammad Mumtaz Khan and Rashid Al-Yahyai, Sultan Qaboos University, Oman; and Bilquees Fatima, University of Agriculture, Pakistan*
7. Advances in mandarin breeding: *José Cuenca, Luis Navarro and Pablo Aleza, Instituto Valenciano de Investigaciones Agrarias (IVIA), Spain*
12. Advances in cultivation of coconut: *M. A. Foale, Quang Thien Nguyen and Steve W. Adkins, The University of Queensland, Australia*
13. Advances in guava breeding: *Pankaj Kumar and K. Usha, Division of Fruits and Horticultural Technology – Indian Agricultural Research Institute, India; and Bhupinder Singh, Centre for Environment Science and Climate Resilient Agriculture (CESCRA), India*
14. Advances in cultivation of guava: *Noosheen Zahid and Mehdi Maqbool, University of Poonch, Pakistan; and Ajit Singh and Asgar Ali, University of Nottingham Malaysia Campus, Malaysia*
15. Crop improvement in jackfruit: *S. Shyamalamma and S. Priyanka, University of Agricultural Sciences, India; and G. S. K. Swamy and P. M. Sampath, University of Horticultural Sciences, India*

Part 2 Other tropical fruits

8. Advances in avocado propagation for the sustainable supply of planting materials: *Jayeni Hiti-Bandaralage, Alice Hayward, Chris O'Brien, Madeline Gleeson, William Nak and Neena Mitter, The University of Queensland, Australia*
9. Advances in cultivation of avocado: *Gary S. Bender, University of California Cooperative Extension, USA*
10. Ecological intensification of banana production systems: *Charles Staver, Bioversity International, France*
11. Advances in breeding of coconut: *L. Parera, Coconut Research Institute, Sri Lanka; R. Manimekalai, Sugarcane Breeding Institute, India; and S. Sudarsono, Bogor Agricultural University, Indonesia*
16. Achieving sustainable cultivation of litchi: *Xuming Huang, South China Agricultural University, China*
17. Advances in breeding of mangoes: *Sunday O. S. Akinyemi, National Horticultural Research Institute, Nigeria*
18. Advances in mango cultivation: *Victor Galán Saúco, Instituto Canario de Investigaciones Agrarias, Spain*
19. Advances in breeding of papaya: *Sunil Kumar Sharma, Indian Agricultural Research Institute, India*
20. Advances in the cultivation of papaya: *Parmeshwar Lal Saran, ICAR - Directorate of Medicinal and Aromatic Plants Research, India; and Ravish Choudhary, Indian Agricultural Research Institute, India*
21. Advances in breeding and cultivation of pomegranate: *Ibrahim Kahramanoglu, Serhat Usanmaz and Turgut Alas, European University of Lefke, Cyprus*
