About the book

This volume reviews the latest research on the role and implantation of the main types of agroforestry, understanding and assessing the ecosystem services that can deliver and techniques for optimising agroforestry practice. The collection will be a standard reference for forestry and agricultural scientists in universities, government and other research centres in agroforestry.

About the editors

Dr María Rosa Mosquera-Losada is Distinguished Professor at the Universidade de Santiago de Compostela, Spain. Professor Mosquera-Losada is President of the Spanish Agroforestry Association (AGFE) and a former President of the European Agroforestry Federation (EURAF).

Dr Ravi Prabhu Deputy Director General (Research) at the World Agroforestry Centre (ICRAF) in Kenya. Dr. Prabhu was previously Senior Programme Officer for Forests and Climate Change at the United Nations Environment Programme (UNEP).

Agroforestry for sustainable agriculture

Available in print and digital formats:
ISBN - print 978-1-78676-2207
Pages 542
Pub. Date June 2019
Price £180/\$235/€215/C\$305
Series No AS55

Agroforestry for sustainable agriculture

Edited by: Professor María Rosa Mosquera-Losada, Universidade de Santiago de Compostela, Spain and Dr Ravi Prabhu, World Agroforestry Centre (ICRAF), Kenya

Part 1 Agroforestry practices

1. Agroforestry practices: riparian forest buffers and filter strips: *Richard C. Schultz, Thomas Isenhardt, William Beck, Tyler Groh and Morgan Davis, Iowa State University, USA*
2. Agroforestry practices: windbreaks: *Gary Wyatt, Amanda Sames and Diomy S. Zamora, University of Minnesota, USA*
3. Managing hedgerows to optimise ecosystem services in agroforestry systems: *Penka Tsonkova and Christian Böhm, Brandenburg University of Technology Cottbus-Senftenberg, Germany; Rico Hübner, Technical University of Munich, Germany; and Julia Ehrhart, Nature and Biodiversity Conservation Union Brandenburg, Germany*
4. Temperate alley cropping systems: *Diomy S. Zamora, University of Minnesota, USA; Samuel C. Allen, New Mexico State University, USA; Kent G. Apostol, Independent Researcher and Editor, USA; Shibu Jose, University of Missouri, USA; and Gary Wyatt, University of Minnesota, USA*
5. Agroforestry practices: silvopastoralism: *Gerardo Moreno and Victor Rolo, INDEHESA, Institute for Silvopastoralism Research, University of Extremadura, Spain*
6. Agroforestry practices: forest farming: *Kenneth Mudge, Cornell University, USA*
7. Modelling agroforestry systems: *Paul Burgess and Anil Graves, Cranfield University, UK; Silvestre García de Jalón, Basque Centre for Climate Change (BC3), Spain; João Palma, MV Agroecology Research Centre, Portugal; Christian Dupraz, INRA-System, University of Montpellier, France; and Meine van Noordwijk, World Agroforestry Centre (ICRAF), Kenya*
8. Tree planting and management in agroforestry: *Lydie Dufour, INRA, France*

Part 2 Agroforestry ecosystem services

9. A holistic approach to sustainable agriculture: trees, science and global society: *Roger R. B. Leakey, International Tree Foundation, UK*

10. The role of agroforestry in habitat conservation and biodiversity use at household level: *Mary Ng'endo, World Agroforestry Centre (ICRAF), Kenya; and Shonil A. Bhagwat, The Open University, UK*
11. Agroforestry: a system for improving soil health: *S. H. Anderson and R. P. Udawatta, University of Missouri, USA*

Part 3 Agroforestry products

12. Agroforestry for hardwood timber production: *J. W. 'Jerry' Van Sambeek, formerly of USDA Forest Service Northern Research Station and University of Missouri Center for Agroforestry, USA*
13. Agroforestry for the cultivation of nuts: *Michael A. Gold, University of Missouri, USA*
14. Agroforestry for fruit trees in Europe and Mediterranean North Africa: *Pierre-Éric Lauri, INRA, France; Karim Barkaoui, CIRAD, France; Mohammed Ater, Abdelmalek Essaadi University, Morocco; and Adolfo Rosati, CREA, Italy*

Part 4 Tropical agroforestry

15. Moving up the scale: challenges in tropical agroforestry: *John Lynam, Independent Consultant*
16. Tropical tree domestication in agroforestry: *Damase Khasa and Alain Atangana, Université Laval, Canada*
17. Tropical agroforestry and ecosystem services: trade-offs analysis for better design strategies: *Rolando Cerda, CATIE (Centro Agronómico Tropical de Investigación y Enseñanza), Costa Rica; Luis Orozco-Aguilar, The University of Melbourne, Australia; Norvin Sepúlveda, CATIE (Centro Agronómico Tropical de Investigación y Enseñanza), Costa Rica; Jenny Ordoñez and Geovana Carreño-Rocabado, CATIE (Centro Agronómico Tropical de Investigación y Enseñanza) and World Agroforestry Centre (ICRAF), Costa Rica; and Freddy Amores, Willan Caicedo, Samuel Oblitas and Eduardo Somarriba, CATIE (Centro Agronómico Tropical de Investigación y Enseñanza), Costa Rica*
