SCIENCE PUBLISHING

THE BURLEIGH DODDS SCIENCE DATABASE

Access over 400 reviews of the latest research in livestock science for a reduced price!

We're pleased to be able to offer BSAS members **continued access to the database** at a significantly reduced **exclusive price of £295** per annum (normally retails at £4000).

Furthermore, this includes all content published during the subscription period, as well as any published content from our forthcoming titles, such as:

- Advances in precision livestock farming
- Optimising pig herd health and production
- Improving poultry meat quality
- Optimising poultry flock health
- Advances in sustainable dairy cattle nutrition

How does it work?

We synthesise and curate key research to empower you to make agriculture more sustainable.

Organised thematically in the BDS Database, users can easily find the content they need by searching across all subjects or delving into sub-divided collections. Collections can be designed to suit users requirements so that you only access content relevant to you but also providing connections to further research.

Designed to support industry and research centres, providing 24/7 access to the latest research information in sustainable agriculture.

Exclusive offer to BSAS members!

Sign up to this fantastic resource for only £295 per annum and enhance your knowledge on the latest research in sustainable agriculture.
