AVAILABLE NOW

About the book

Biostimulants stimulate natural processes in crops to enhance nutrient uptake, nutrient use efficiency (NUE), resistance to abiotic stress and quality traits. This collection reviews key advances in understanding and using biostimulants.

About the editors

Youssef Rouphael is an Associate Professor at the University of Naples Federico II, Italy.

Patrick du Jardin is Head of the Plant Biology Laboratory at Gembloux Agro-Biotech, University of Liège, Belgium.

Patrick Brown is Professor of Plant Nutrition at the University of California-Davis, USA.

Stefania De Pascale is Professor of Horticulture at the University of Naples Federico II, Italy.

Giuseppe Colla is Professor of Horticulture at the University of Tuscia, Italy.

Biostimulants for sustainable crop production

Available in print and digital formats:

ISBN - print 978-1-78676-336-5

Pages 386

Pub. Date July 2020

Price £150/\$195/€180/C\$255

Series No AS84

Biostimulants for sustainable crop production

Edited by: Youssef Rouphael, Patrick du Jardin, Patrick Brown, Stefania De Pascale and Giuseppe Colla

Part 1 Introduction and biostimulant characterization

1. Plant biostimulants: a new paradigm for the sustainable intensification of crops: *Patrick du Jardin, Gembloux Agro-Bio Tech – University of Liège, Belgium*
2. Bioactive compounds and evaluation of biostimulant activity: *Luigi Lucini and Begoña Miras-Moreno, Università Cattolica del Sacro Cuore, Italy; and Andrea Ertani, Università degli Studi di Padova, Italy*

Part 2 Non-microbial and microbial categories of biostimulants

3. Humic substances (HS) as plant biostimulants in agriculture: *Andrea Ertani, Università degli Studi di Padova and Università degli Studi di Torino, Italy; and Michela Schiavon and Serenella Nardi, Università degli Studi di Padova, Italy*
4. Seaweed extracts as plant biostimulants in agriculture: *Izabela Michalak, Wrocław University of Science and Technology, Poland; Katarzyna Tyśkiewicz, Marcin Konkol and Edward Rój, New Chemical Syntheses Institute, Poland; and Katarzyna Chojnacka, Wrocław University of Science and Technology, Poland*
5. Biostimulant action of protein hydrolysates on crops: *Giuseppe Colla, University of Tuscia, Italy; Youssef Rouphael, University of Naples Federico II, Italy; Mariateresa Cardarelli, Consiglio per la ricerca in agricoltura e l'analisi dell'economia agraria, Centro di ricerca Orticoltura e Florovivaismo, Italy; Luigi Lucini, Università Cattolica del Sacro Cuore, Italy; and Andrea Ertani, University of Turin, Italy*
6. Silicon as a biostimulant in agriculture: *Wendy Zellner, The University of Toledo, USA; and Lawrence Datnoff, Louisiana State University Agricultural Center, USA*

7. Plant growth-promoting rhizobacteria (PGPR) as plant biostimulants in agriculture: *Dongmei Lya, Rachel Backer and Donald Smith, McGill University, Canada*
8. Arbuscular mycorrhizal fungi as biostimulants for sustainable crop production: *Michael Bitterlich, Leibniz-Institute of Vegetable and Ornamental Crops, Germany; Louis Mercy and Miguel Arato, INOQ GmbH, Germany; and Philipp Franken, Erfurt Research Centre for Horticultural Crops, University of Applied Sciences Erfurt and Institute of Microbiology, Friedrich Schiller University Jena, Germany*

Part 3 Innovation and practical applications

9. Designing and formulating microbial and non-microbial biostimulants: *Paolo Bonini, NGALab, Spain; Veronica Cirino, Atens Agrotecnologias Naturales S.L., Spain; Helene Reynaud, Italtollina USA, USA; Youssef Rouphael, University of Naples Federico II, Italy; Mariateresa Cardarelli, CREA, Centro di ricerca Orticoltura e Florovivaismo, Italy; and Giuseppe Colla, University of Tuscia, Italy*
10. Plant biostimulants and their influence on nutrient use efficiency (NUE): *Patrick H. Brown, Douglas C. Amaral, Meerae Park, Jennifer Schmidt and Amelie Gaudin, University of California-Davis, USA*
11. Combining plant biostimulants and precision agriculture: *Raffaele Casa, University of Tuscia, Italy; Davide Cammarano, Purdue University, USA; Domenico Ronga, CREA, Italy; and Giuseppe Cillo, University of Teramo, Italy*
