AVAILABLE NOW

About the book

Around one third of all food production is lost or wasted. This book provides a comprehensive review of the causes and prevention of food losses and waste at key steps in the supply chain, for different commodities and across particular regions.

About the editor

Professor Elhadi M. Yahia is Professor and Senior Research Scientist at the Autonomous University of Querétaro, Mexico. Professor Yahia has published 20 books in 3 languages and more than 300 book chapters and articles on post-harvest handling of fresh produce. He has worked at the Food and Agriculture Organization of the United Nations (FAO) where he helped launch the Global Initiative on Food Loss and Waste Reduction.

Preventing food losses and waste to achieve food security and sustainability

Available in print and digital formats:

ISBN - print	978-1-78676-300-6
Pages	852
Pub. Date	March 2020
Price	£210/\$275/€250/C\$360
Series No	AS70

Preventing food losses and waste to achieve food security and sustainability

Edited by: Professor Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico

1. Food security: key issues: *Silvia Gaiani and Jorge Fonseca, Food and Agriculture Organization of the United Nations (FAO), Italy*

Part 1 The problem of food losses and waste

2. Food losses and waste: definitions, causes and methods for quantification: *Elhadi M. Yahia, Universidad Autónoma de Querétaro, México; and Camelia Bucataru, Independent Researcher, Italy*
3. The role of food losses and waste in food insecurity: *Camelia Bucataru, Independent Researcher, Italy*
4. The multidimensional socio-economic impacts of food losses and waste: *Abdallah Omezzine, University of Nizwa, Oman; Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico; and Camelia Bucataru, Independent Researcher, Italy*
5. The environmental impact of food loss and waste (FLW): *I. Higuera-Ciapara and R. Lugo-Melchor, Food Technology Unit, Centro de Investigación y Asistencia en Tecnología y Diseño del Estado de Jalisco, A.C. (CIATEJ), Mexico; and L. O. Noriega-Orozco, Centro de Investigación en Alimentación y Desarrollo A.C. (CIAD), Mexico*
6. The impact of food loss and waste on human nutrition and health: *Jorge L. Chávez-Servín, Roberto A. Ferriz Martínez and Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico*
7. The role of food safety in food waste and losses: *Dima Faour-Klingbeil, Plymouth University, UK and DFK for Safe Food Environment, Germany; and Ewen Todd, Ewen Todd Consulting, USA*

Part 2 Causes of food losses and waste

8. Improving supply chains to prevent food losses and waste: an overview: *Hamid El Bilali, University of Natural Resources and Life Sciences (BOKU), Austria*
9. Food losses during production of agricultural commodities: *Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico; José de Jesús Ornelas-Paz, Centro de Investigación en Alimentación y Desarrollo A.C. (CIAD), Mexico; et al.*
10. Food losses and waste during food processing: *Hanne Møller, Aina Elstad Stensgård and Ole Jørgen Hanssen, Ostfold Research, Norway*
11. Temperature deviations during transport as a cause for food losses: *Reiner Jedermann, Institute for Microsensors, Actuators and Systems (IMSAS), Germany; Ulrike Praeger and Martin Geyer, Leibniz Institute for Agricultural Engineering and Bioeconomy (ATB), Germany; et al.*
12. Food waste at the consumer level: *Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico; and Marie Mourad, Center for the Sociology of Organizations (CSO), France*
13. Food waste in food services: *Sampsa Nisonen and Kirsi Silvennoinen, Natural Research Institute Finland (LUKE), Finland*

Part 3 Food losses and waste in different commodities

14. Food losses and waste in cereal grains: *Tadele Tefera, International Centre of Insect Physiology and Ecology, Ethiopia; and Esayas Mendis, Jimma University, Ethiopia*
15. Losses and waste in fruits and vegetables: *Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico; and Jorge M. Fonseca, Food and Agriculture Organization of the United Nations (FAO), Italy*

16. Food losses and food waste in roots and tubers: *Martini Binti Mohammad Yusoff and Azizah Binti Misran, Universiti Putra Malaysia, Malaysia*
17. Food losses and waste in meats: *Salah El-Safty, Ain Shams University, Egypt; and Carlos F. Sosa-Ferreya, Universidad Autónoma de Querétaro, Mexico*
18. Understanding and preventing seafood loss and waste: *I. Higuera-Ciapara and R. Lugo-Melchor, Food Technology Unit, Centro de Investigación y Asistencia en Tecnología y Diseño del Estado de Jalisco, A.C. (CIATEJ), Mexico; and L. O. Noriega-Orozco, Centro de Investigación en Alimentación y Desarrollo A.C. (CIAD), Mexico*

Part 4 Reducing food losses and waste

19. Investment needs and role of the private sector in reducing food loss and waste: *Pilar Santacoloma, Food and Agriculture Organization of the United Nations (FAO), Colombia; Laura Brenes, Agribusiness School Tecnológico de Costa Rica and Costa Rican FLW Network, Costa Rica; et al.*
20. The role of food banks in food security and food loss and waste (FLW) prevention: *Moez El Shohdi, Egyptian Food Bank/Food Banking Regional Network, Egypt; and Rasha El Shafei, Universities of Canada in Egypt, Egypt*
21. Reusing and recycling of food waste: *Jesús R. Rodríguez-Núñez, Universidad de Guanajuato, Mexico; and Armida Rodríguez-Félix and Tomás J. Madera-Santana, Centro de Investigación en Alimentación y Desarrollo A.C. (CIAD), Mexico*
22. Householder food waste prevention campaigns: contributions from psychology and marketing: *Sandra Davison and Anne Sharp, University of South Australia, Australia*
23. Reusing food waste: the importance of mycotoxin detection and decontamination: *F. Ascencio, Centro de Investigaciones Biológicas del Noroeste, Mexico; and T. Sandoval-Contreras, Instituto Tecnológico de Tepic, Mexico*

Part 5 Regional case studies

24. Challenges and initiatives in reducing food losses and waste: United States: *Leigh Prezkop and Amanda Stone, World Wildlife Fund (WWF), USA; Gregory A. Baker, Santa Clara University, USA; Lisa K. Johnson, Independent Consultant, USA; and Jonathan Deutsch, Drexel University, USA*
25. Challenges and initiatives in reducing food loss and waste in Europe: *Camelia Bucataru, Independent Researcher, Italy*
26. Food losses and waste in the Near East and North Africa region: *Elhadi M. Yahia, Universidad Autónoma de Querétaro, Mexico*
27. Challenges and initiatives in reducing postharvest food losses and food waste: sub-Saharan Africa: *Tanya Stathers, Natural Resources Institute (NRI) – University of Greenwich, UK; and Brighton Mvumi, University of Zimbabwe, Zimbabwe*
28. Challenges and initiatives in reducing food losses and waste: Latin America and the Caribbean: *Laura Brenes-Peralta and María Fernanda Jiménez-Morales, Instituto Tecnológico de Costa Rica, Costa Rica; et al.*
