About the book

This collection reviews advances in understanding key diseases and insect pests of tree fruit. It shows how this understanding can be used to improve integrated disease and pest management techniques.

About the editors

Professor Xiangming Xu is Head of the Department of Pest and Pathogen Ecology at the world-famous NIAB EMR (East Malling Research).

Dr Michelle Fountain is Deputy Head of the Department of Pest and Pathogen Ecology at NIAB EMR (East Malling Research).

Integrated management of diseases and insect pests of tree fruit

Available in print and digital formats:

ISBN - print 978-1-78676-256-6

Pages 748

Pub. Date September 2019

Price £210/\$275/€250/C\$360

Series No AS68

Integrated management of diseases and insect pests of tree fruit

Edited by: Professor Xiangming Xu and Dr Michelle Fountain, NIAB EMR, UK

Part 1 Fruit diseases

1. Epidemiology and management of apple scab: Tom Passey and Xiangming Xu, NIAB EMR, UK
2. Powdery mildew: biology, epidemiology, and management of *Podosphaera* spp. of tree fruit: A. Amiri and L. Gañán, Washington State University, USA
3. Apple replant disease: causes and management: Zhiquan Mao and Yanfang Wang, Shandong Agricultural University, China
4. Fungal diseases of fruit: apple cankers in Europe: Robert Saville and Leone Olivieri, NIAB EMR, UK
5. Fungal diseases of fruit: apple canker in Asia: Baohua Li, Qingdao Agricultural University, China
6. Brown rot: causes, detection and control of *Monilinia* spp. affecting tree fruit: Imre Holb, University of Debrecen and Hungarian Academy of Sciences, Hungary
7. Apple mosaic virus: biology, epidemiology and detection: Karel Petrzik, Biology Centre CAS, Czech Republic
8. Plum pox virus: detection and management: Manuel Rubio, Federico Dicenta and Pedro Martínez-Gómez, CEBAS-CSIC, Spain

Part 2 Integrated fruit disease management

9. Disease monitoring and decision making in integrated fruit disease management: Angela Berrie, NIAB EMR, UK
10. Breeding fruit cultivars with durable disease resistance: Vincent G. M. Bus and Joanna K. Bowen, The New Zealand Institute for Plant and Food Research Limited, New Zealand; Andrea Patocchi, Agroscope, Switzerland; Giovanni A. L. Broggin, ETH Zürich, Switzerland; Satish Kumar, The New Zealand Institute for Plant and Food Research Limited, New Zealand; and François N. D. Laurens, Institut National de Recherche Agronomique, France
11. Improving plant propagation methods for fruit disease control: Ioannis Tzanetakos, University of Arkansas, USA; and Robert Martin, USDA-ARS, USA
12. Improving fungicide use in integrated fruit disease management: Mengjun Hu, University of Maryland, USA

13. Use of biocontrol agents in fruit tree disease management: Jürgen Köhl, Wageningen University and Research, The Netherlands
14. New techniques for managing post-harvest diseases of fruit: physical, chemical and biological agents: Simona Marianna Sanzani and Antonio Ippolito, Università degli Studi di Bari Aldo Moro, Italy

Part 3 Insect pests of tree fruit

15. Insect pests of fruits: aphids: Giuseppe E. Massimino Cocuzza, Università di Catania, Italy
16. Integrated management of tortricid pests of tree fruit: Alan L. Knight, USDA-ARS, USA; Gary J. R. Judd, Agriculture and Agri-food Canada, Canada; Todd Gilligan, USDA-APHIS-PPQ, USA; Eduardo Fuentes-Contreras, Universidad de Talca, Chile; and William B. Walker III, Swedish University of Agricultural Sciences, Sweden
17. Integrated management of mite pests of tree fruit: Rebecca A. Schmidt-Jeffris, Clemson University, USA; Elizabeth H. Beers, Washington State University, USA; and Carlo Duso, University of Padua, Italy
18. Integrated management of tree fruit insect pests: *Drosophila suzukii* (Spotted Wing *Drosophila*): Neil Audsley, Fera Science Ltd, UK; and Lorenzo Tonina and Nicola Mori, University of Padova, Italy

Part 4 Integrated management of fruit insect pests

19. Cultural control of arthropod pests in temperate tree fruit: Matthew J. Grieshop, Michigan State University, USA
20. Improving monitoring and forecasting in integrated management of fruit arthropod pests: Tim Belien, Proefcentrum Fruitteelt VZW, Belgium; Sławomir Lux, inSilico-IPM, Poland; Bart De Ketelaere, Katholieke Universiteit Leuven, Belgium; and Dany Bylemans, Proefcentrum Fruitteelt VZW, Belgium
21. Biological control in integrated management of deciduous fruit insect pests: the use of semiochemicals: Larry Gut, Christopher Adams and James Miller, Michigan State University, USA; and Peter McGhee and Donald Thomson, Pacific Biocontrol Corporation, USA
22. Optimizing insecticide use in integrated management of fruit insect pests: Claudio Ioriatti and Gino Angeli, Fondazione Edmund Mach, Italy; Greg Krawczyk, The Pennsylvania State University, USA; and Carlo Duso, University of Padova, Italy
