About the book

This collection summarises current research on the composition and function of the gastrointestinal tract in poultry, the factors that affect its function, and nutritional strategies to optimise poultry nutrition, health and environmental impact.

About the editor

Dr Steven C. Ricke is the Director of the Center for Food Safety at the University of Arkansas (UA) and is a faculty member of the Dept. of Food Science and Cellular and Molecular Graduate program. He served as co-founder and former President of the Arkansas Association of Food Protection (AAFP).

Improving gut health in poultry

Available in print and digital formats:

ISBN - print	978-1-78676-304-4
Pages	546
Pub. Date	November 2019
Price	£180/\$235/€215/C\$305
Series No	AS73

Improving gut health in poultry

Edited by: Professor Steven C. Ricke, University of Arkansas, USA

Part 1 Understanding the gastrointestinal tract

1. Commercial poultry production and gut function: a historical perspective: *Dana Dittoe and Steven C. Ricke, University of Arkansas, USA; and Aaron Kiess, Mississippi State University, USA*
2. Advances in sequence technologies for generating poultry gut microbiome data: *Xiaofan Wang and Jiangchao Zhao, University of Arkansas, USA*
3. Omics technologies for connecting host responses with poultry gut function: *Jana Seifert and Bruno Tilocca, University of Hohenheim, Germany*
4. Understanding gut microbiota in poultry: *Robert Moore, RMIT University, Australia*
5. In ovo development of the chicken gut microbiome and its impact on later gut function: *E. David Peebles, Mississippi State University, USA*
6. Understanding gut function in poultry: immunometabolism at the gut level: *Ryan J. Arsenaault, University of Delaware, USA*
7. Understanding gut function in poultry: the role of commensals, metabolites, inflammation, and dysbiosis in intestinal immune function and dysfunction: *Michael H. Kogut, USDA-ARS, USA*

Part 2 Factors that impact the gastrointestinal tract and different types of birds

8. Genetics and other factors affecting intestinal microbiota and function in poultry: *Michael D. Cressman, The Ohio State University, USA; Jannigje G. Kers, Utrecht University, The Netherlands; and Lingling Wang and Zhongtang Yu, The Ohio State University, USA*
9. Antibiotics and gut function: historical and current perspectives: *Jeferson M. Lourenço, Darren S. Seidel and Todd R. Callaway, University of Georgia, USA;*
10. Gastrointestinal diseases of poultry: causes and nutritional strategies for prevention and control: *Raveendra R. Kulkarni, North Carolina State University, USA; Khaled Taha-Abdelaziz, University of Guelph, Canada and Beni-Suef*

University, Egypt; and Bahram Shojadoost, Jake Astill and Shayan Sharif, University of Guelph, Canada

11. The interaction between gut microbiota and pathogens in poultry: *Ruediger Hauck, Auburn University, USA; and Lisa Bielke and Zhongtang Yu, The Ohio State University, USA*
12. Microbial ecology and function of the gastrointestinal tract in layer hens: *Steven C. Ricke, University of Arkansas, USA*

Part 3 Feed additives and gut health modulation

13. Controlling pathogens in the poultry gut: *Osman Yasir Koyun and Todd R. Callaway, University of Georgia, USA*
14. The role of probiotics in optimizing gut function in poultry: *Guillermo Tellez and Juan D. Latorre, University of Arkansas, USA; Margarita A. Arreguin-Nava, Eco-Bio LLC, USA; and Billy M. Hargis, University of Arkansas, USA*
15. Role of prebiotics in poultry gastrointestinal tract health, function, and microbiome composition: *Steven C. Ricke, University of Arkansas, USA*
16. The role of synbiotics in optimizing gut function in poultry: *Guillermo Tellez and Juan D. Latorre, University of Arkansas, USA; Margarita A. Arreguin-Nava, Eco-Bio LLC, USA; and Billy M. Hargis, University of Arkansas, USA*
17. Short chain organic acids: microbial ecology and antimicrobial activity in the poultry gastrointestinal tract: *Steven C. Ricke, University of Arkansas, USA*
18. The role of essential oils and other botanicals in optimizing gut function in poultry: *Divek V. T. Nair, Grace Dewi and Anup Kollanoor-Johny, University of Minnesota, USA*
19. The role of specific cereal grain dietary components in poultry gut function: *Paul Iji, Fiji National University, Fiji Islands; Apeh Omede, University of New England, Australia; Medani Abdallah, University of New England, Australia; and Emmanuel U. Ahiwe, University of New England, Australia*
