About the book

This collection summarises 50 years of research on plant health by the International Institute of Tropical Agriculture (IITA) to improve the health of crops in Africa. It will be a standard reference on improving the management of pests and diseases in developing countries.

About the editors

Dr Peter Neuenschwander is an Emeritus Scientist at the International Institute of Tropical Agriculture (IITA), based in Benin. Formerly Director of the IITA's Plant Health Management Division, he has worked on integrated pest management (IPM) projects in over 25 countries.

Dr Manuele Tamò is insect ecologist at the International Institute of Tropical Agriculture (IITA) in Benin, with a particular focus on IPM in cereal-legume systems. He has worked with organisation such as AVRDC, ICRISAT and AfricaRice on IPM projects in many countries.

Critical issues in plant health: 50 years of research in African agriculture

Available in print and digital formats:

ISBN - print 978-1-78676-232-0

Pages 492

Pub. Date February 2019

Price £170/\$220/€205/C\$305

Series No AS58

Critical issues in plant health: 50 years of research in African agriculture

Edited by: Dr Peter Neuenschwander and Dr Manuele Tamò, International Institute of Tropical Agriculture (IITA), Benin

Part 1 Managing threats to plant health

1. Key challenges in plant health in sub-Saharan Africa: stakeholder priorities: Kenton Dashiell, *International Institute of Tropical Agriculture (IITA), Nigeria*
2. Introduction: meeting challenges in plant health in sub-Saharan Africa: Peter Neuenschwander and Manuele Tamò, *International Institute of Tropical Agriculture (IITA), Benin*
3. Disease surveillance, diagnostics and germplasm health in crop protection: P. Lava Kumar, *International Institute of Tropical Agriculture (IITA), Nigeria*; James P. Legg, *IITA, Tanzania*; Maria Ayodele, *IITA, Nigeria*; George Mahuku, *IITA, Tanzania*; and Alejandro Ortega-Beltran and Ranajit Bandyopadhyay, *IITA, Nigeria*
4. Conserving and exploiting biodiversity in crop cultivation in sub-Saharan Africa: Georg Goergen and Peter Neuenschwander, *International Institute of Tropical Agriculture (IITA), Benin*; and Danny Coyne, *International Institute of Tropical Agriculture (IITA), Kenya*
5. Viruses affecting African crops and their vectors: James P. Legg, *IITA, Tanzania*; P. Lava Kumar, *IITA, Nigeria*; George Mahuku, *IITA, Tanzania*; Everlyne Wosula, *IITA, Tanzania*; Livia Stavolone, *IITA, Nigeria*; Eugene Terry, *New Markets Lab, USA*; and Nilsa Bosque-Pérez, *University of Idaho, USA*

Part 2 Plant health in practice: managing threats to key African crops

6. Identifying and managing plant health risks for key African crops: cassava: Muaka Toko and Peter Neuenschwander, *International Institute of Tropical Agriculture (IITA), Benin*; J. Steve Yaninek, *Purdue University, USA*; Alejandro Ortega-Beltran, *International Institute of Tropical Agriculture (IITA), Nigeria*; André Fanou and Victor Zinsou, *Université de Parakou, Benin*; Kerstin D. Wydra, *Erfurt University of Applied Sciences, Germany*; Rachid Hanna and Appolin Foto, *International Institute of Tropical Agriculture (IITA), Cameroon*; and Ouorou Douro-Kpindou, *International Institute of Tropical Agriculture (IITA), Benin*
7. Identifying and managing plant health risks for key African crops: maize: Ranajit Bandyopadhyay, *International Institute of Tropical Agriculture (IITA), Nigeria*; Kitty F. Cardwell, *Oklahoma State University, USA*; Alejandro Ortega-Beltran, *International Institute of Tropical Agriculture (IITA), Nigeria*; Fritz Schulthess, *Rheinstrasse 160, Switzerland*; William Meikle, *USDA-ARS, USA*; Mamoudou Sétamou, *Texas A&M University, USA*; and Peter J. Cotty, *USDA-ARS, USA*
8. Identifying and managing plant health risks for key African crops: yam, taro and cocoyam: Babatima Djana Mignouna, *IITA, Benin*; P. Lava Kumar, *IITA, Nigeria*; Danny Coyne, *IITA, Kenya*; and Ranajit Bandyopadhyay, Alejandro Ortega-Beltran, Ranjana Bhattacharjee and David De Koeyer, *IITA, Nigeria*
9. Identifying and managing plant health risks for key African crops: banana and plantain: Stefan Hauser, *IITA, Nigeria*; Clifford Gold, *Nevada City, USA*; Cornelia Pasberg-Gauhl and Friedhelm Gauhl, *FG-Inter-Agro-Consult KG, Austria*; Juliet Akello, *IITA, Zambia*; Kim Jacobsen, *Royal Museum for Central Africa, Belgium*; Lindsey Norgrove, *Bern University of Applied Sciences, Switzerland*; Danny Coyne, *IITA, Kenya*; P. Lava Kumar, *IITA Tanzania*; George Mahuku, Manoj Kaushal, *IITA, Tanzania*; Valentine Nakato, *IITA, Uganda*; and Leena Tripathi and Jindra Tripathi, *IITA, Kenya*
10. Identifying and managing plant health risks for key African crops: legumes: Manuele Tamò, *International Institute of Tropical Agriculture (IITA), Benin*; Léonard Afouda, *Université de Parakou,*

- Bénin*; Ranajit Bandyopadhyay, *International Institute of Tropical Agriculture (IITA), Nigeria*; Harry Bottenberg, *United States Agency for International Development, USA*; Laura Cortada-Gonzales, *International Institute of Tropical Agriculture (IITA), Kenya*; Harun Murithi, *International Institute of Tropical Agriculture (IITA), Tanzania*; Alejandro Ortega-Beltran, *International Institute of Tropical Agriculture (IITA), Nigeria*; Barry Pittendrigh, *Michigan State University, USA*; Rachidatou Sikirou, *Institut National des Recherches Agricoles au Bénin, Benin*; Abou Togola, *International Institute of Tropical Agriculture (IITA), Nigeria*; and Kerstin D. Wydra, *Erfurt University of Applied Sciences, Germany*
11. Identifying and managing plant health risks for key African crops: vegetables: Ignace Godonou, *International Institute of Tropical Agriculture (IITA) and Catholic University of West Africa, Benin*; May-Guri Sæthre, *International Institute of Tropical Agriculture (IITA), Nigeria*; Ghislain Tèpa-Yotto, *International Institute of Tropical Agriculture (IITA) and Université Nationale d'Agriculture, Benin*; Désiré Gnanvossou and Ouorou Douro-Kpindou, *International Institute of Tropical Agriculture (IITA), Benin*; and Danny Coyne, *International Institute of Tropical Agriculture (IITA), Kenya*
 12. Identifying and managing plant health risks for key African crops: fruit and other tree crops: Peter Neuenschwander and Désiré Gnanvossou, *International Institute of Tropical Agriculture (IITA), Benin*; Stefan Hauser, *International Institute of Tropical Agriculture (IITA), Nigeria*; Georg Goergen, *International Institute of Tropical Agriculture (IITA), Benin*; Rachid Hanna, *International Institute of Tropical Agriculture (IITA), Cameroon*; Lindsey Norgrove, *Bern University of Applied Sciences, Switzerland*; and Koffi Negloh and Cyriaque Agboton, *International Institute of Tropical Agriculture (IITA), Benin*

Part 3 Integrated pest management: putting it all together and exchange of knowledge with farmers

13. Commercial products promoting plant health in African agriculture: Frederick Schreurs and Ranajit Bandyopadhyay, *IITA, Nigeria*; Christiana Kooman, *IITA, Kenya*; Alejandro Ortega-Beltran and Adebowale Akande, *IITA, Nigeria*; Matiyedou Konlambigue, *IITA, Ghana*; and Niels Van den Bosch, *IITA, Nigeria*
14. Weeds affecting field crops and water bodies in Africa: David Chikoye, *International Institute of Tropical Agriculture (IITA), Zambia*; Friday Ekeleme, Stefan Hauser, Abebe Menkir and Alpha Y. Kamara, *International Institute of Tropical Agriculture (IITA), Nigeria*; Peter Neuenschwander and Obinna Ajuonu, *International Institute of Tropical Agriculture (IITA), Bénin*; and Hakeem A. Ajeigbe, *International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Nigeria*
15. Making integrated pest management (IPM) work in sub-Saharan Africa: Danny Coyne, *IITA, Kenya*; Michael Abberton, *IITA, Nigeria*; Soukoura Adetona, *IITA, Bénin*; Maria Ayodele, *IITA, Nigeria*; Laura Cortada-Gonzales, *IITA, Kenya*; Brice Gbaguidi, *IITA, Bénin*; Stefan Hauser and P. Lava Kumar, *IITA, Nigeria*; Peter Neuenschwander, *IITA, Bénin*; Marc Schut, *Wageningen University, The Netherlands*; Manuele Tamò, *IITA, Benin*; and Abou Togola, *IITA, Nigeria*

Part 4 Conclusions and future challenges

16. Improving plant health in sub-Saharan Africa: conclusions and future challenges: Peter Neuenschwander and Manuele Tamò, *International Institute of Tropical Agriculture (IITA), Benin*; and May-Guri Sæthre, *International Institute of Tropical Agriculture (IITA), Nigeria*
