About the book

This collection provides a comprehensive review of recent research on effective support measures to improve the livelihoods of smallholders in sub-Saharan Africa, and discusses how to improve access to key resources, such as seeds, tools and expertise for soil health improvement and integrated pest management (IPM) programmes.

About the editors

Dr Dominik Klausner is a Senior Program Officer at the Syngenta Foundation for Sustainable Agriculture (SFSA) which supports resource-poor small farmers in developing countries.

Dr Mike Robinson is Chief Science Advisor at the Syngenta Foundation for Sustainable Agriculture (SFSA).

The sustainable intensification of smallholder farming systems

Available in print and digital formats:

ISBN - print 978-1-78676-430-0

Pages 466

Pub. Date November 2020

Price £180/\$235/€215/C\$305

Series No AS93

The sustainable intensification of smallholder farming systems

Edited by: Dr Dominik Klauser and Dr Mike Robinson, Syngenta Foundation for Sustainable Agriculture (SFSA), Switzerland

Part 1 Understanding smallholder farming

1. The challenges of smallholder farming: *Steve Wiggins, Overseas Development Institute, UK*
2. The economics of smallholder farming: *David Eagle and Nadira Saleh, Mennonite Economic Development Associates (MEDA), Canada*

Part 2 Agricultural production

3. Water management for rainfed smallholder farming: *Christoph Studer, Bern University of Applied Sciences (BFH), Switzerland*
4. Smallholder seed systems for sustainability: *Ian Barker, International Potato Center (CIP), UK; Richard Jones, formerly AGRA-SSTP, Kenya; and Dominik Klauser, Syngenta Foundation for Sustainable Agriculture, Switzerland*
5. Tools for pest and disease management by stakeholders: a case study on Plantwise: *Washington Otieno, Willis Ochilo and Lorna Migiyo, CAB International, Kenya; and Wade Jenner and Ulrich Kuhlmann, CAB International, Switzerland*
6. Improving integrated soil fertility management (ISFM) by smallholders: *B. Vanlauwe, International Institute of Tropical Agriculture (IITA), Kenya*
7. Access to mechanization for smallholder farmers in Africa: *O. A. Fatunbi and R. Kombat, Forum for Agricultural Research in Africa (FARA), Ghana*

Part 3 Access to finance and information

8. Financial services for smallholders: *Nikesh Ghimire, Mennonite Economic Development Associates (MEDA), Canada*
9. Strengthening public-sector extension systems for smallholder farmers in Kenya: *Charles Nkonge, David Kamau and Felister Makini, Kenya Agricultural and Livestock Institute (KALRO), Kenya*
10. Strengthening commercial extension systems for smallholders: *Matthew Freeman and Wanjiku Mungai, One Acre Fund, Kenya*
11. Supporting female smallholders: *Margaret Adesugba, Newcastle University, UK*

Part 4 Access to value chains

12. Improving market access for smallholders: *Yanyan Liu, Nicholas Minot and Mengying Wang, International Food Policy Research Institute, USA*
13. Incentivizing sustainable production practices: improving and scaling extension, certification, carbon markets and other incentive systems: *Christine Negra, Versant Vision LLC, USA; and Tanja Havemann, Clarmondial AG, Switzerland*
14. The role and challenges of the private sector in supplying inputs to smallholders: *John Derera, Seed Co Group, Zimbabwe; and Joyce Gikera, Qualibasic Seed Ltd, Kenya*
15. The role and challenges of the private sector in enabling market access for smallholders: *John Logan, TechnoServe, Kenya*
